
Competition #2 - Legend of Zelda 2nd Quest

Posted by WebNations - 2006/12/11 01:27

Though the first contest is not done we will start the next one so that every month 1 competition ends. This brings some dynamic instead of long waiting times. This time the votes decided that Legend of Zelda 2nd Quest will be the game of this contest. Like before there are some rules which are as follows:

- Tool-Assisted
- Played with an emulator
- No avi-files are accepted
- Only movie file accepted
- Recorded from reset
- Ingame name must be Zelda due to 2nd quest reasons
- Used no cheats
- Completes the game
- No hacked roms used

The prize for winning the Mortal Kombat Mythologies is a Wii game of your choice. As before the prize for this one will be published some days later.

Before I forget, this is no rule but a suggestion. Please try not to use VirtuaNes 0.93 because the the timer during the playback. This looks just awful.

In addition winning the prize is only possible if you agree not to publish this movie anywhere else than here. So we must have the exclusive publishing rights of your movie.

Thanks...
I'll try:)

You could try a run through normal mode but without a sword. This is possible and could be pretty interesting to see a swordless run. :)
